Career Pathway Assessment Report

User Details-

Name : Krishna Saxena

Class : 12th

Section : A

Top 3 Recommended Careers

Life Sciences

Sports & Fitness

Engineering & Technology

Life Sciences

Your career fit is 70% for Life Sciences

Life sciences encompass the study of living organisms and environmental processes. This field is crucial for advancements in healthcare, agriculture and research. Opportunities are expanding in pharmaceuticals, research institutions and clinical laboratories, driven by innovation and increasing investment in scientific research and development.

A Quick Snapshot

Interest (Key and Secondary Areas of Interest)

The interest inventory reveals preferences and passions that drive you, highlighting activities and fields that capture your attention and enthusiasm. By understanding these core interests, you gain insight into what naturally engages you, helping you align your career choices with aspects that you truly enjoy.

Personality (Leading Traits)

1 Emotionality

2 Extraversion

The Personality assessment highlights those unique characteristics and qualities that define an individual. They focus on those inherent and enduring aspects which help us predict one's pattern of thinking, feeling and behaving in a given situation. These personality traits allow us to predict career pathways that a person is naturally suited for.

Multiple Intelligence (Your Strongest Intelligences and Preferred Learning Approaches)

1

Bodily Kinesthetic

2

Logical - Mathematical

The multiple intelligence test uncovers the diverse ways in which you process information and solve problems. By understanding these perceived abilities, you gain insight into activities that suit your skill-set, helping you choose careers that you are inclined to be successful at.

Aptitude (Your Problem-Solving Abilities)

1 Spatial

2 Reasoning

Aptitude assessments identify your natural talents and abilities across different skill areas, highlighting strengths that may come more easily to you. By understanding these aptitudes, you gain insight into areas where you can excel, helping you focus on paths that make the most of your potential.

Value & Belief (The Principles That Matter Most to You)

1

Independence

2

Intellectual Stimulation

The value and belief assessment reveal the principles and convictions that guide your actions and decisions, highlighting the fundamental philosophy that is at your very core. Understanding your values helps you choose career pathways that abide by your moral standards and your ethical code.
